BRAND IDENTITY · V1.0 · OCTOBER 2026

RAYBELLE

How to use the Raybelle wordmark, palette and type. Everything here is drawn from the live storefront theme, so the files and the site match exactly.

LOGO

The wordmark

RAYBELLE is set in Bodoni Moda SemiBold at its display optical size, tracked at 0.18 em. In the exported files the letters are converted to outlines, so the mark looks identical everywhere and does not depend on the font being installed.

Primary · rose-gold on espresso wordmark-gold

Light grounds · espresso wordmark-espresso

One-colour reverse · bone wordmark-bone

On rose gold · espresso wordmark-espresso

The metallic gradient needs a dark ground to read as metal. On bone or any light colour it turns muddy, so use the solid espresso mark there.

LOGO

Profile pictures and monogram

For social profiles, use the full wordmark centred on a square. It sits well inside the circle that Instagram, TikTok and others crop to. Where the avatar shows smaller than about 64 px, or for favicons, packaging seals and embossing, use the R monogram.

Profile · gold on espresso

Profile · espresso on bone

Monogram · gold on espresso

32 px

LOGO

Clear space and minimum size

Keep a margin of at least half the cap height (the height of the R, marked *x*) on every side. Nothing else should enter it: no text, edges or other logos.

Minimum width

Bodoni's hairline serifs disappear when the mark is small. Below these widths, use the monogram.

Screen	120 px wide
Print	30 mm wide
Monogram	24 px / 8 mm

COLOUR

Palette

A warm, restrained palette: bone and espresso carry nearly everything, and rose-gold is the accent. Olive is a quiet supporting colour for status and small details, not for large areas.

Espresso

Text, dark bands, logo on light

HEX	#1D1D1B
RGB	29 29 27
CMYK	0 0 7 89

Bone

Page ground, text on dark

HEX	#F2EBDD
RGB	242 235 221
CMYK	0 3 9 5

Rose gold

Accent, buttons, highlights

HEX	#B78368
RGB	183 131 104
CMYK	0 28 43 28

Cocoa

Secondary accent, links on bone

HEX	#795A45
RGB	121 90 69
CMYK	0 26 43 53

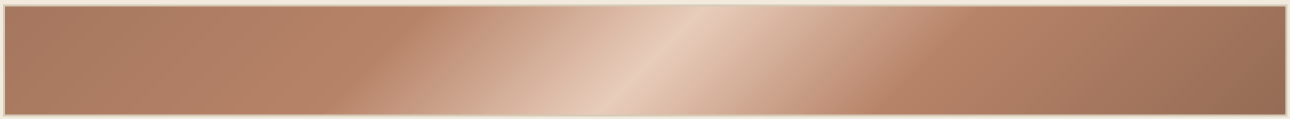

Olive

Support, status, small details

HEX	#777A4B
RGB	119 122 75
CMYK	2 0 39 52

Wordmark gradient

0%	30%	50%	70%	100%
Shadow	Mid	Highlight	Mid	Deep
#A5775E	#B78368	#E8CDBB	#B78368	#946B55

CMYK values are straight conversions. Proof them with your printer before a print run.

Linear, top-left to bottom-right across the whole word. Use it for the logo only, never as a background fill. For foil or print, use a rose-gold foil, or Rose gold as a flat colour.

TYPOGRAPHY

Two typefaces

Bodoni Moda

Display. Headlines, large numbers in spec rows, the wordmark. Use the optical size axis: high (96) for large type so the hairlines stay fine, low (12–24) for small italic captions.

Google Fonts · SIL Open Font License · weights 400 and 600

Work Sans

Text. Body copy, navigation, buttons, labels and prices. Regular 400 for reading, 500–600 for labels and UI.

Google Fonts · SIL Open Font License · weights 400, 500, 600

Hero · 48	Café-quality espresso, anywhere
H2 · 30	Made to travel light
Spec · 44	20 bar
Body · 16	Pull a full shot in under a minute, from a machine that fits in your bag.
Label · 11	FREE SHIPPING OVER $75

Sample copy shows the type, not approved product claims.

VOICE AND USE

Simple and expressive

Expressiveness comes from the type and the scale, not from colour.

Raybelle is warm and restrained. Generous whitespace, hairline rules instead of boxes, sentence case for headings and copy. Write plainly and specifically. Avoid exclamation marks, jokes and playful lowercase.

Do

- ✓ Use the supplied files as they are.
- ✓ Put the gradient mark on espresso or other dark grounds.
- ✓ Use the solid espresso mark on bone, rose gold and photos with light areas.
- ✓ Keep the clear space, and switch to the monogram below 120 px.
- ✓ Use the full-wordmark profile picture on social accounts.

Don't

- ✕ Retype the wordmark in a font. Use the outlined files.
- ✕ Stretch, condense, rotate or re-space the letters.
- ✕ Put the gradient mark on light or busy backgrounds.
- ✕ Recolour it outside this palette, or add shadows, outlines or glows.

FILES

Logo files

All files are in the Raybelle `brand/` folder. SVGs are vector and scale to any size. PNGs are supplied at 1000, 2000 and 4000 px wide (profile pictures at 512, 1080 and 2048 px; monograms at 512 and 1024 px).

File	Use	Background
`raybelle-wordmark-gold`	Primary logo	Transparent (place on dark)
`raybelle-wordmark-gold-on-espresso`	Social, slides, email headers	Espresso
`raybelle-wordmark-espresso`	Light grounds, documents, one-colour print	Transparent
`raybelle-wordmark-espresso-on-bone`	Ready-made light version	Bone
`raybelle-wordmark-bone`	Reverse on dark photos and bands	Transparent
`raybelle-profile-gold-on-espresso`	Social profile picture	Espresso
`raybelle-profile-espresso-on-bone`	Light social profile picture	Bone
`raybelle-monogram-gold-on-espresso`	Small avatar, favicon, app icon	Espresso
`raybelle-monogram-espresso-on-bone`	Light avatar, stickers, seals	Bone
